Historical Review

Welcome to your assignment to a FIREScope Subcommittee. This assignment shows both your home agency's and the FIREScope organization's collective faith in your skills and commitment to the fire service. This document is intended to provide basic information about FIREScope and to outline the expectations of your participation in the organization.

You are now poised to directly contribute to the advancement of all hazard incident management and interagency cooperation that has been the FIREScope mission since its inception in 1972. Over the years, the organization has relied on individuals from many agencies to design and maintain the FIREScope programs including the Incident Command System (ICS) and the Multi-Agency Coordination System (MACS).

As a member of a FIREScope Subcommittee, you will be expected to represent your agency and the California fire service. You should be prepared to provide input in the development of guidance and procedures that contribute to effective incident command through ICS. Your Subcommittee is a collaborative committee that focuses on collective solutions to industry challenges directly pertaining to your field of expertise. Although the organization was founded in the fire service, we address all hazards and cross disciplines.

FIREScope Mission Statement

"The mission of FIREScope is to provide recommendations and technical assistance to the Office of Emergency Services (OES), to maintain the FIREScope Decision Process, and to continue the operation, development, and maintenance of the FIREScope Incident Command System (ICS) and the Multi-Agency Coordination System (MACS). The mission of the OES Fire and Rescue Services Advisory Committee is to provide professional recommendations and technical assistance to the Director of OES and the OES Fire and Rescue Branch on program elements."

FIREScope, an acronym from its full title, **F**irefighting **R**ESources of **C**alifornia **O**rganized for **P**otential **E**mergencies, remains the leader in incident management development. Under provisions set forth by Senate Bill 27, chartered on October 2, 1989, under Health and Safety Code Section 13070, the Office of Emergency Services (OES), the California Department of Forestry and Fire Protection (CAL FIRE), and the State Fire Marshal (SFM) are to jointly establish and administer the FIREScope Program.

ICS is recognized at a national level as the incident command element of the National Incident Management System (NIMS) as administered by Federal Emergency Management Administration (FEMA). The system has been accepted internationally as a model of effective incident management. As effective as the current ICS model may be, it is a living system that requires continual review and updating to assure that it meets current incident command and resource management practices. Your work with FIREScope is important and may ultimately have international influence.

FIRESCOPE Organization

The FIRESCOPE organization currently operates using five primary levels of committee, each one reporting up to the next level. Each group has representation from a broad spectrum of fire and emergency management agencies providing input ranging from federal to volunteer perspectives. FIRESCOPE relies on the “consensus” decision-making process that creates buy-in among diverse local, state, and federal agencies toward a common goal. Active participation from all members is expected during discussions and product development.

Board of Directors:

The Board of Directors (BOD) is comprised of Chief/Director/President/Executive Director level members from a variety of federal, state, and local agencies who are responsible for charting the overall direction of FIRESCOPE programs.

The BOD meets four times a year in January, April, July, and October for a two- day meeting. The meeting locations alternate between the north and south regions. Additional conference call meetings are arranged by the BOD Chair as needed to assure continuity of FIRESCOPE business.

Operations Team:

The Operations Team (Ops Team) is made up primarily of Chief Officers at the Division, Assistant, Deputy, or higher level in their home agencies. The group’s primary responsibilities are to provide technical expertise to the Board of Directors and professional direction to the Task Force (TF). The Ops Team further serves as the reviewing body for products forwarded from the TF and determines when products and issues provided by the Task Force are ready to be forwarded to the BOD for consideration and direction.

The Ops Team holds an in person two-day meeting quarterly, in March, June, September, and December. These meetings are normally on dates immediately following TF meetings to facilitate common travel and attendance. Additional conference call meetings are arranged by the Ops Team Chairperson as needed to assure continuity of FIRESCOPE business.

Task Force:

Task Force members typically hold the rank of Battalion or Division Chief. The TF’s main function is to provide operational and functional expertise in the areas of mutual aid, ICS, and MACS. At the direction of the Ops Team, the TF maintains the ICS 420-1 Field Operations Guide and manages projects as assigned to define and clarify ICS functions as they apply to a variety of disciplines.

The TF meets monthly. The meetings are held at different locations around the state and typically cover two days. Length of the meeting may be adjusted by the chair as needed to handle the current workload. Meeting dates and locations are determined by

collective agreement of the TF members. Meeting sites and accommodations are coordinated by a hosting member of the TF.

There are four fixed meeting months for co-located meetings with the Operations Team: March, June, September, and December.

The December Task Force and Operations Team meetings will also include the subcommittee executive staff to present their group's annual plans of work, charters and rosters for the upcoming year.

A MAC Group Exercise managed by the Task Force occurs annually in May and alternates between northern and southern California and also rotates through all Cal OES Regions.

The TF maintains the management of projects that are assigned by the Ops Team and listed in the FIREScope Plan of Work. Some projects are completed by members of the TF while some are delegated to Specialist Groups & Subcommittees that are organized by specific disciplines. The TF also has the responsibility to bring issues to the Ops Team that are determined to need attention.

Specialist Groups:

Specialist Groups (SG) are assembled to assist the Task Force in the development, implementation, and maintenance of FIREScope products. Specialist Groups review and deconflict the products proposed by the subordinate Subcommittees. Representation on these groups is comprised of members of the subordinate Subcommittees.

There are currently 6 Specialist Groups that address specific disciplines and oversee Subcommittees: Currently, the groups include:

Health and Safety Special Operations Incident Technology Emergency Operations Air Operations Training and Education

The Task Force liaisons from each subcommittee shall meet with their assigned specialist group and will ensure two specialist group meetings occur annually (spring/fall) The liaisons will provide direction and support to their respective group as needed.

Subcommittees:

Subcommittees assist the Task Force & Specialist Groups in the development, implementation, and maintenance of FIREScope products. The Subcommittees will be organized under a Specialist Group and will be either "Standing" or "Ad Hoc." Standing Subcommittees are established to address long-term needs while "Ad Hoc" Subcommittees are established to address a specific need or short-term issue. Once the need or issue has been addressed, the Ad Hoc Subcommittee will be disbanded at the discretion of the Task Force. Two members of each Subcommittee will sit on the respective Specialist Group. At least one of the Subcommittee members represented

on the Specialist Group will be either the Chair or Vice Chair of the Subcommittee. Products from the Subcommittee will be submitted to the respective Specialist Group for review. Membership on Subcommittees requires Task Force approval, continued agency employment, and support of the sponsoring agency. Retired representatives serving on Subcommittees require a letter of approval and support from the Chief of the representative agency.

Subcommittees will reflect the current FIREScope Board of Directors and the Cal OES Fire and Rescue Service Advisory Committee which are comprised of the fire chiefs and directors from the following agencies and departments are voting members:

- Los Angeles City Fire Department (1)
- Los Angeles County Fire Department (1)
- Orange County Fire Authority (1)
- Santa Barbara County Fire Department (1)
- Ventura County Fire Department (1)
- Kern County Fire Department (1)
- California Governor's Office of Emergency Services (Cal OES) (1)
- California Department of Forestry and Fire Protection (CAL FIRE) (1)
- California State Fire Marshal & State Fire Training (1)
- US Forest Service (1)
- U.S. Bureau of Indian Affairs (1)
- U.S. Bureau of Land Management (1)
- U.S. Fish & Wildlife Service (1)
- National Park Service (1)
- Large City Fire Departments (North/South) * (2)
- Small/Medium City Fire Departments (North/South) ** (2)
- County Fire Departments North/South (2)
- Fire Districts (North/South) (2)
- Volunteer Fire Departments (North/South) (2)

*Large City Fire Departments are agencies with 25 staffed fire stations or more.

**Small/Medium City Fire Departments are agencies with less than 25 staffed fire stations.

Northern Agencies are located in Cal OES Mutual Aid Regions II, III, or IV Southern Agencies are located in Cal OES Mutual Aid Regions I, V, or VI

The FIREScope Board and the Cal OES Fire and Rescue Service Advisory Committee have identified Partner Agencies & Organizations. The fire chiefs, directors, presidents, chairpersons, or Technical Specialists from other agencies and departments are advisory only and NOT voting members.

The list of current subcommittees is listed on the link below:

<https://firescope.caloes.ca.gov/ICS%20Documents/FIREScope%20Organizational%20Chart.pdf>

Each Subcommittee will have at minimum, two Task Force members assigned as Liaisons responsible for providing their respective group with direction and support as needed.

Document Approval Process

As FIREScope products are developed, they are to be submitted to the next higher organizational level group for review and approval. All products submitted shall be preceded or accompanied by a brief White Paper that uses the approved FIREScope White Paper template. After review, the materials should be either:

1. Approved as submitted and moved to the next level
2. Returned with comment for additional editing
3. Amended as determined by the approving group and moved to the next level of the approval process.

Prior to publication, FIREScope products shall pass through the decision process which may include the approval by the Board of Directors as recorded in their meeting minutes.

Participation and Attendance

As a Subcommittee member, it is important that you are present at all scheduled meetings. Although all members hold important responsibilities at their home agency, they are expected to attend the Subcommittee meetings. The home agency of each member has pledged their support for FIREScope and is expected to honor that support by allowing your attendance at the meetings. Each member's input and representation are vital to the collective mission of FIREScope. It is critical to the team effort that we establish and maintain solid and productive working relationships amongst our members.

Appropriate attire at all FIREScope meetings is business casual or departmental uniform.

For the sake of continuity and productivity, it is highly recommended that each member provides a succession plan for their replacement if they leave the group. There is a great value in the exposure to the group's meetings and practices prior to assuming a full participatory seat.

Liaison Responsibilities

Every TF member is assigned liaison responsibility to a Subcommittee. Consideration for assignments is made according to each member's area of interest or expertise. Attendance at Subcommittee meetings is required.

The Liaison responsibilities include:

- Attendance at all Subcommittee meetings.
- Delivery of assignments to the Subcommittee from the TF.

- Monitoring the work of the Subcommittee and assuring that the work follows FIREScope standards.
- Reporting back to the TF on all activities of the Subcommittee.
- Forwarding recommendations for Plan of Work items back to the TF

Meeting Accommodations and Travel Arrangements

All Subcommittee meetings are coordinated by a member of the group. The member is expected to arrange a meeting place and hotel availability at a conveniently close facility. Typically, the meeting place is at a departmental facility of the member's home agency.

Since a number of the Subcommittee members are restricted by travel cost caps, arranging a block of hotel rooms at a negotiated "State Rate" is expected. Individual reservations are the sole responsibility of each member.

Another common restriction placed on travel by home agencies is advanced notice. It is expected that the Subcommittee member hosting the meeting will finalize accommodations and post a flyer to the FIREScope website through the Subcommittee Chair. The meeting flyer should be posted at least 45 days in advance. The TF will designate their meeting dates and locations 6 months in advance and include the locations in the group's monthly meeting minutes. SG & Subcommittee meetings shall not conflict with the scheduled TF meeting dates.

Subcommittee members are responsible for arranging their own travel in accordance with their home agency's policies. As a part of the assignment to the Subcommittee, the member's home agency has committed to fiscal support of the individual's FIREScope travel requirements. Pay for the Subcommittee member's time commitment is part of the home agency's financial support of the FIREScope assignment. FIREScope does not provide reimbursement for hours worked or travel costs.

Further Information and Research

To better understand the FIREScope organization, mission, and goals it is highly recommended that each Subcommittee member explore and review the FIREScope website: <https://firescope.caloes.ca.gov/> Specifically, the document, *MACS 410-4 Articles of Organization and Procedures*, provides a complete description of FIREScope operational structure.

Further detailed information regarding the Subcommittees, including roster, Charter and Plans of Work can be found on the website.

All TF members are available to help with any questions that may arise.
