

## WHITE PAPER

July 11, 2024

TO: FIRESOPE Board of Directors  
23300 Castle Street  
Riverside, CA 92518-2200

FROM: FIRESOPE Operations Team, Task Force & Eric Roberts, Document  
Unit Leader - Task Force

SUBJECT: FIRESOPE 400-2 UPDATE

APPROVAL: **The FIRESOPE Board of Directors approved this document on  
July 11, 2024**

### SUMMARY

The FIRESOPE MACS 400-2 document is used to list, organize, and describe the various documents produced by FIRESOPE. The 400-2 was last revised in January of 2019. Invariably this document will become inaccurate due to the continued efforts of FIRESOPE Subcommittees, Specialist Groups, and other allied agencies. New documents and the modernization of existing documents will cause a need for an update.

### RECOMMENDATIONS

It is respectfully recommended that the 400-2 update be accepted with an expectation that it will be updated annually as documents are added or organized within the FIRESOPE numbering convention.

### IMPLEMENTATION PLAN

The updated numbering and descriptions found in this document can be implemented immediately due to the fact that they will match the documents listed on the FIRESOPE website under "Publications".

### FINDINGS

This revision clarifies and offers additional description for the various written products produced by the various levels of FIRESOPE. This version also organizes various products that were out of place due to their content.

## CONCLUSION

Approving this document will ensure that FIRESCOPE continues to offer relevant, organized, and consistent products for the California Fire Service and users abroad.

Approved: July 11, 2024
