6/3/2025:

- Meeting Called to order at 1300 hours
- Review of Diablo Power Plant Tour
- Minutes Review from March 2025 Motioned to accept by Cody Clem, 2nd Calzada, Motion Carried
- ICS 208 approved and moving to the BOD
- Foam Typing Project- Dunivin Still working on the Appendix and the command Concepts Update next meeting
- Kevin C updated on the Hazmat Team List 34 teams on the state list to collaborate with all the teams in the state. Kevin is working through the names and vetting who is still on the teams.
- Firescope will have a booth at the Continuing Challenge this year. Sign up for Shifts, QR code for the survey. We need to plan a Committee Dinner. Meeting will be at CAL OES at 1430 hrs on September 1st.
- Task Force and BOD update- Roberts All submitted items moving forward. Chief Roberts discussed the "Good Fire" concept and the Risk Reduction needs for all hazards. White Paper Community Risk Reduction Subcommittee development
- HZSO-Dunlap was rejected at Ops and was rejected by IMTs. The Paper was rewritten to be and submitted to actually define the position of a HZSO to be different from an ASO. This position would still be a Tech/Spec and added when needed to the incident but be housed in the SOFR spot when activated but not an IMT position. The discussion would also be part of a future IST program. The discussion would be parallel to the FEMA Hazmat Position on the IST. A discussion on the overall duties of the HZSO vs a possible Branch type leader. Motion to approve- Dunivin 2nd Slumpf Motion Carried
