

FIRESCOPE Operations Team South Meeting  
April 27, 1995, OCC, Riverside  
Notes

Mike Dougherty, USFS	Dave Festerling, VNC
Steve Vittum, SBC	Andy Anderson, Quincy Fire
Ray Russell, CSFM	John Linder, OES Fire
Claude Creasey, LFD	Ralph Alworth, CDF
Cary Eckard, Kern County	Jim Radley, ORC
Robert Martines, CDF	

Francis Fujioka, Riverside Fire Lab USFS

- Fire weather prediction and weather modeling
- Vision from original FIRESCOPE problem
- Linking fire weather and fire behavior models
- Looking to develop partnership with Los Alamos lab
- Can show fire weather situation in kilometers
- What would fire community want from this project
- FS & CDF will get with Fire Lab and try and develop a partnership for operational development

Discussion of High Rise Working Group

- Group is struggling with organization structure
- Task Force feels they will come to consensus. A lot of work has been done and once final organization consensus has been completed product should come together fairly quickly.

Hazmat

- Will be field testing position training with Task Force on September 25, 1995

Task Force

- Has requested NWCG to re-work engine typing to match the FOG.
- To re-work helicopter typing to address heavy lift helicopters.
- Developed, with State Fire Marshall, experience standards for presenting Generic ICS Training.

Position Training

- Decision to look into

### MACS 410-2 Resource Designation System

- Updated to reflect organizational changes of CDF, and the addition of BLM.

### New Field Ops Guide

- Available, need to get orders in.

### MACS Orientation

- There will be a MACS Orientation prior to the season getting under way.
- Decision to have MACS Exercise mid June 1995.

### 93 Fire Siege After Action Report

- Concern that resources do not have adequate inter-resource communications. Ops Team directs Communications Specialist Group to develop alternatives for inter-resource communications. Item is identified in FIREScope After Action Report Summary.

### Decision Process

- FIREScope reviewed Decision Process, Mutual Aid Region V. Ops Team will develop recommendation to address issues stated in Chief Honeycutt's March 8, 1995 correspondence.
