

FIRESCOPE  
Task Force Meeting #84-7  
LFD Station 3  
April 26, 1984

Attending: M. Barrows, USFS  
D. Castleman, CDF  
K. Hammond, VNC

C. Creasey, LFD  
R. Praytor, OES

Absent: Herb McElwee, SBC

Vacant: LAC

1. Bob Praytor reported on the action being taken by the Weather Specialist Group on the letter from the National Weather Service dated March 23, 1984 (copy provided). The Task Force was informed that recommendations will be coming from the group on proposed organization and procedural changes for on-scene weather information. Next Weather Specialist Group Meeting is scheduled for May 30, 1984 at LFD Station 3.

2. A. Review the following Meteor Evaluation worksheet.  
General (overall evaluation).
- B. OCC/MACS command floor and MACS coordination points interface.
- C. Sitstat/Restat operation including inputs from the field.
- D. G.H.Q. Team functions.
- E. MACS Information Unit.

Barrows agreed to put the evaluation report together for final Task Force revision before being submitted to Operations Team.

3. Next Meeting:

Date: May 17, 1984  
Location: Diamond X NPS  
Time: 0900  
Agenda: METEOR Evaluation Report
